

Cittamani Hospice Service

June Appeal 2018

Mike and I loved music, and loved to dance together... and through this love we encouraged other members of the Suncoast Social Dancers to join us in supporting Cittamani.

Having had this regular contact with Cittamani over the years, we thought that we knew what the Service was all about. However, it wasn't until Mike became terminally ill that we were truly aware of what Cittamani has to offer. To be given help WHENEVER we needed it ... nursing advice over the phone as well as regular home visits, including direct communication between the Cittamani nurses and our own GP when crises arose — it all eliminated so much stress for us.

We were also given the use of specialised equipment to make our lives easier, and Mike more comfortable. They even had a 'skinny' wheelchair for him as our home is not designed for a disabled person. We were both incredibly grateful for the quiet, caring responses from the very professional nursing team ... and now that Mike has gone, I greatly appreciate the contact of the Cittamani social workers for their ongoing care and support that they give to me.

I hope that you will respond to this appeal, and give generously to this wonderful service.

Thank you,

Rita James
