

SPIRITUALITY CONFERENCE 2026

Sustaining Hope - Staying Connected

Our 2026 Spirituality Conference, Sustaining Hope, Staying Connected, explores not only Buddhist understandings of interconnectedness and interdependence, though leaning into what that looks like across other and non-denominational spirituality. Highlighting how connection can support meaning, resilience, and agency in all phases of life.

Speakers will reflect on hope in palliative care, focusing on staying present and supporting people to make meaning in times of suffering. The conference invites gentle reflection on how hope is sustained through relationship, care, and connection.

 Friday 31st July 2026

 8.30 AM - 3.30 PM
